.NET/FULLSTACK/UNITY3D DEVELOPER

I am an experienced full-stack developer with a focus on backend development using .NET technologies. I can create SQL queries, in particular in MSSQL Server, and have extensive practical experience with Azure, AWS. In front-end development, I have a strong background in building applications using the Angular and Aurelia frameworks. Additionaly I have experience in developing games using Unity3D engine

KEY COMPETENCIES

- C#
- Net Core
- ASP.NET
- SQL
- SignalR
- RabbitMQ
- AWS
- Docker
- Azure
- Angular
- Aurelia
- Unity3D
- PowerBi
- Entity ramework
- PlayWright
- Stripe
- Ocelot
- Git
- GitHub Actions
- Digital Ocean

PROFESSIONAL EXPERIENCE

bArt Solutions

ASP.NET/Unity 3D developer   August 2023 - Present

I am involved in a three-in-a-row mobile game project developed using Unity3D technology.

Responsibilities

- Develop and integrate the "Teams" feature, enabling player interaction through chat and leaderboard functionalities
- Design and implement animations within the game

- Implement backend support for the "Teams" feature
- Create reports using the PowerBI platform
- Optimize and enhance existing game functionalities

ASP.NET/Fullstack developer   July 2022 - August 2023

I contributed to a skincare system that automatically identifies skin issues and offers treatment recommendations, along with links to purchase medicines. The platform provides robust admin tools and scrapers to ensure updated information on healing methods and available medications.

Responsibilities

- Integration of product barcode scraper using BarcodeLookup API
- Development of a custom background job system
- Implementing advanced filtration system for application admin side
- Provision of a payment system for the client application using Stripe

- Creation of an adaptive and user-friendly interface for the client-side application
- Optimization of SQL query performance
- Integration of reCAPTCHA v3

EDUCATION

Bachelor, Computer Science Program Engineering
National University of Kharkiv nure.ua

Master, Computer Science Program Engineering
National University of Kharkiv nure.ua

LANGUAGES

- English (B2)
- Ukrainian (native)
- German (B1)
